- HTML, CSS, and JavaScript
- Java

Frameworks:

- Spring Boot

IDE's:

- IntelliJ Ultimate Edition
- Replit

## API's:

- GoogleMaps
- Google +

Proud Feature

```
<p> Finding a precise route the user
takes on their eco-friendly transport </p>
```

Our Feature in Action...

This is just a demo of what our future will look like

Sustainable Travel Planner

Welcome to Sustainable Travel Planner. Plan your travel with the environment in mind. Find eco-friendly accommodations, transportation options, and activities that preserve the natural beauty of your destination.

Demo

What Went Well?

```
<p> Effective Communication </p>

<p> Clear Project Goals </p>

<p> Successful feature implementation </p>

<p> Efficient task delegation </p>
```

What Went Poorly?

```
<p> Lack of effective time management </p>

<p> Last minute changes </p>

<p> Expertise in Web Frameworks </p>

<p> Consistent errors in program  </p>
```

THANK YOU!

Any questions?
